Journal of Systems Management -- 1990 Article Index

A Case Of Systems Development In A Hostile Environment
Engming Lin and Phillip Ashcraft - **April**

A Method For Systems Selection
James M. Wilson, Ph.D./Reggie G.L. von Zugbach, Ph.D. - **September**

An Appraisal Of Executive Information And Decision Support Systems
Brian McNamara, Ph.D./George Danzinger, Ph.D./Edwin Barton, Ph.D. - **May**

An EDP Control Audit With Teeth
Avery C. Cloud - **January**

Are Microcomputers Useful In Management Education?
Carter L. Franklin II - **December**

But First, Understand The Problem
George H. Wedberg - **June**

Changing The Change Agent
Michael Newman, Ph.D. - **January**

Commercial Use Of Expert Systems In The U.S.
A. Ansari/Batoul Modarress - **December**

Comparing Knowledge-Based And Transaction Processing Systems
W.J. Kenny Jih, Ph.D. - **May**

Computer-Based Information Commons
Al Mingione, CDP, CSP - **October**

Concert Building: Management's New Goal
David S. Brown, Ph.D. - **February**

Contingency Planning For Physical Disasters
William C. Andrews, CSP - **July**

Creating An Evolutionary Software System: A Case Study
Howard W. Miller, CDP, CSP - **August**

Current Trends In Transaction Processing Systems
Vijay Kumar, Ph.D. - **January**

Design And Development Of Small Data Management Systems
Oscar Gutierrez, Ph.D. - **June**

Designing An EIS In A Multidivisional Environment
Robert B. Fireworker, Ph.D., William Zirkel - **February**

EDI Revolutionizes The Auto Insurance Industry
Frank Vedock/Bob Wheeless - **October**

End Users Talk Computer Policy
Francois Bergeron, Ph.D./Carole Berube - **December**

End User Training In Office Automation: Matching Expectations
Roger L. Hayen/Wells F. Cook/Gregory H. Jecker - **March**

Evaluating Alternative Computer Acquisition Strategies
David A. Ameen, Ph.D. - **September**

Faculty Residents: A Skilled And Untapped Labor Pool
Ted R. Compton, Ph.D., CSP - **June**

Fighting Crime With Computer Networks
A. Curtis Powers - **October**

How Experienced Users Rate Voice Mail
Rex L. Barrington/William H. Baker - **December**

Human Resource Information Systems: User Group Implications
Scott I. Tannenbaum, Ph.D. - **January**

Information Systems Planning: A Case Study
Richard B. Carter/Sree Nilakunta/Daniel Norris - **July**

Instant Screen Design
Merle P. Martin, Ph.D. - **April**

IS Quality - What Is It?
Pat P. Ragozzino - **November**

Knowledge-Based Decision Aids For Information Retrieval
Sheila M. Jacobs, Ph.D./Robert T. Keim, Ph.D., CSP - **May**

Management Attitudes Toward IT In The U.K.
William Black/Robert Trippi - **December**

Management Support Software: What Are Your Options?
Daniel J. Power, Ph.D. - **August**

Managing Information Costs And Technologies As Assets
John E. Framel - **February**

Meeting The Challenge Of End User Computing
John A. McGann, CSP - **March**

Non-Technical Manager's Modelling Of Management Decision Situations
Robert J. Mockler, Ph.D. - **May**

Pitfalls In Microcomputer System Implementation In Small Businesses
John F. Schleich/William J. Corney/Warren J. Boe - **June**

Planning And Building Strategic Information Systems
John G. Burch - **July**

Producing A Quality Product
Benjamin D. Burge - **November**

Putting Information Systems Planning Methodologies Into Perspective
John F. Barlow, Ph.D. - **July**

Rescuing Development Projects With Gate Reviews
Linda Garrette - **April**

Selecting The Right Software Application Package
Margaret S. Wu, Ph.D. - **September**

Selection Criteria For Fourth Generation Languages
Marshall E. Drummond/Arthur R. Reitsch, Ph.D. - **September**

Simply Seeking Software
David A. Schmaltz - **August**

Software Testing In A System Development Process
Eldon Y. Li, Ph.D. - **August**

Soviets Need Business Systems Skills
Al Mingione, CDP, CSP - **November**

Systems Architecture: Identifying Strategic Strikes
Randall W. Latham - **October**

Systems Development With Application Generators
Chang-Yang Lin - **April**

The Function And Management Of Information Centers
Kathleen O'Shea/Krishnamurty Muralidhar, Ph.D. - **December**

The New Quality Landscape: Total Quality Management
Lawrence M. Tobin, CSP - **November**

The RFR: Winning The Race Of Technology
Matthew L. Buchman - **September**

Tying It All Together: E-Mail At Boeing Aerospace
Darrell S. Corbin - **October**

Untangling Information Systems
David F. Danzig - **February**

Untangling Information Systems Part II
David F. Danzig - **March**

Upgrading An Accounting Information System In A Not-For-Profit
William F. Brown - **January**

Using Quantitative Analysis To Plan And Manage IS Support Functions
Michael F. Corbett - **November**

Editorial
Building Trustworthy Systems - **January**
The Numbers Are Not Always "Right" - **February**
Another Sign Of A New Era - **March**
Is Bigger And Faster Always Better? - **April**
One More Sign Of A New Era - **May**
Directing And Controlling - **June**
The Real Purpose Of Most Information Systems - **July**
Configuration Management - **October**
Here's To Better Meetings - **November**

System Notes
Disposable Information Systems - **January**
A View Of Alternatives - **February**
The New Methodology - **March**
The Errant Estimate Part I - **April**
The Errant Estimate Part II - **May**
Little Roads And Great Journeys - **June**
The Death Of Analysis - **July**
People Before Technology - **August**
Mainstream Design - **September**
Put Your User In His Place -- On Top! - **October**
Ice Milk And Programming - **November**
Gong - Ho Projects - **December**

Looking Into The Future
Where Are We? - **January**
In The Pursuit Of Quality - **April**
Superconductivity - **May**
Offshore Development - **June**
Quotes And Cliches - **July**
Supercomputers And The Karmarkar Algorithm - **August**
Is IS Ripe For Malpractice Suits? - **September**
Does IS Have Technophobia? - **October**
Focus On The Process! - **November**
Information Refineries -- Converting Facts Into Knowledge - **December**

Looking Back
Education Of A Systems Analyst: Part II - **January**
Building A Better Mousetrap - **February**
More About Dangerous Corporate Leaks - **March**
The Three Stages Of An Original Systems Concept - **April**
Newsmaking Events - **May**
Characters Encountered - **June**
A Microfilm Review And A Secretarial Story - **July**
The Art of Self Defense - **August**
Internal Versus External Systems Consultants - **September**
Random Access - **October**
Error-Free Productivity - **November**
More About Error-Free Productivity - **December**

Management Information Round Table
Accelerating Progress In The 1990s - **March**
How Will The 1990s Affect Systems People? - **April**
Increasing Systems Staff Effectiveness - **May**
Big Or Small: That Is The Question - **June**
Preserving The Environment Through Systems Analysis - **July**
Maintaining Profitable Continuity - **August**
MIS -- Thinking On Its Own - **September**
Dealing With Employee Waste - **November**
When The CEO's Involvement Is Unwanted - **December**
